

Course Outline

S4510 Inventory Management and Physical Inventory in SAP S/4HANA

General Description

This course offers a comprehensive overview and in-depth knowledge about inventory management and physical inventory in SAP S/4HANA. After attending this course, you will understand the major business processes, functions and configuration.

This course is mostly suitable for participants who are not familiar with inventory management and physical inventory in SAP ERP. For those coming with SAP ERP background knowledge, the delta training S4PR1 is more applicable.

Course based on software release:

- SAP S/4HANA 1909

Goals

- The participants are familiarized with the basic functions of inventory management and physical inventory in SAP S/4HANA.
- The participants will learn how to enter various goods movements in SAP S/4HANA and, if necessary, how to take special features into account.
- The participants learn about special functions in inventory management and physical inventory as well as customizing settings relevant to inventory management and physical inventory.

Audience Profile

- Application Consultant
- Program/Project Manager
- Super/Key/Power User

Prerequisites

Essential

- S4500 Business Processes in SAP S/4HANA Sourcing and Procurement
